

Dear Representative Pearce,

The No Child Left Behind Act (NCLB) is the current version of the Elementary and Secondary Education Act (ESEA), the fundamental federal law governing K-12 education.

I strongly support the stated goals of the law - to raise student learning, close achievement gaps, and ensure that every child is taught by a highly qualified teacher. But, simply put, the law is not working.

NCLB is up for reauthorization this year, and I am asking you to make sure that Congress steers clear of any merit pay schemes and makes these three fundamental changes in the law so that it actually works *FOR* children:

- Use more than test scores to measure student learning and school performance
- Reduce class size to help students learn
- Increase the number of highly qualified teachers in our schools

Sincerely,

Dear Representative Pearce,

The No Child Left Behind Act (NCLB) is the current version of the Elementary and Secondary Education Act (ESEA), the fundamental federal law governing K-12 education.

I strongly support the stated goals of the law - to raise student learning, close achievement gaps, and ensure that every child is taught by a highly qualified teacher. But, simply put, the law is not working.
