Take Back Our Public Schools NEA-NM & AFT NM Rally at the Round House: February 15, 2014, Santa Fe Plaza and march to State Capitol

Is a Compromise on School Funding in the Cards? Not Yet!

Talk of a possible compromise between Democrat and Republican House members regarding the school budget in the General Appropriations Act, House Bill 2 continued throughout the day. While details of any compromise were not public, a Democratic caucus failed to reach final consensus after meeting most of the morning; we continue to receive assurance from Democratic leaders that any compromise will not include merit pay or reductions in school employee raises. But until there is a consensus finalized, many things could be on the table.

The measure has been recalled from the Speakers table to the House Appropriations and Finance Committee (HAFC); this is where the compromise would likely be crafted. When a compromise is reached, the calendar dictates that House Bill 2 could return to the House Floor quickly. Let HAFC members and your House member, regardless of party, know that you support maximum funding "above the line" through the School Equalization Guarantee and meaningful salary increases. Ask them to resist the Governor and her Republican followers attempts to reduce funding to school districts (and local control)! Thank Democrats for their support on the House floor Friday and ask them to stay the course! If your Representative is a Republican, let them know you are disappointed in their lack of trust in you and your school district to make decisions at the local level.

As the General Appropriations Act, House Bill 2, was debated on the House Floor last week it had no merit pay provisions and most school funding still "above the line" in the school equalization guarantee (SEG). The measure still has an increase for beginning salaries at each teacher licensure tier of \$2,000. It still has a 3% average salary increase for all school employees and an additional 3% increase for educational assistants.

All Republicans and Democrat Sandra Jeff attempted to amend the bill on the House Floor Friday afternoon to add merit pay and other of the Governor's and PED Secretary-designee Skandera's pet projects. The attempt failed on a tie vote as did the final vote on the budget as approved by the HAFC.

The debate on the amendment was over three hours long and consisted of repeated attacks on public education and trust in local control by almost every Republican who spoke. If you want to hear this debate, the Governor's office videotapes all House Floor Sessions. She probably never intended you hear the nasty things Republican House members say about you and local school districts, but its there.

The do pass motion was a straight party-line vote with all Democrats supporting our position and all Republicans opposing it.

SJR 8 PUBLIC EDUCATION COMMISSION, CA, Sen. Keller/Rep. MH Garcia — proposes an amendment to the Constitution of New Mexico to establish duties and functions of the Public Education Commission by granting the commission: the sole authority to render a final decision approving or denying an application for the establishment or renewal of a charter for or revoking a charter of a state-chartered charter school; and the sole authority to affirm or revoke the charter of a locally chartered charter school or applicant upon review of a local school board's decision to grant a new charter or renew an existing charter. This legislation is a symbolic gesture to remind the legislature of the findings of the Funding Formula Task Force Report created in June 2009. The task force stated that public education was under funded by \$362 million. This measure awaits hearing in the Senate Education Committee.

This bill has passed the House Education Committee and awaits a hearing in the House Appropriations and Finance Committee. It is funded in the current version of House Bill 2 stalled in the House because of the tie vote.

HJR 3, CA, Representative Jim Trujillo This amendment will keep distribution to public schools from the permanent fund at the current level of 5.5%.
